LICENSING & REVIEW

(1) That he is the inventor of the subject matter disclosed and claimed in the above-identified application for United States Letters Patent.

(2) That he conceived the subject invention solely in the course of his employment with Westinghouse Electric Company LLC, and while utilizing the funds, facilities, materials, equipment and services solely of Westinghouse Electric Company made available under commercial funding.

(3) That this invention, to the best of his knowledge, information and belief, has never been utilized, tested or embodied under any work, under any contract, subcontract, or arrangement with or for the benefit of the United States Atomic Energy Commission, or its successors in interest, the United States Energy Research and Development Administration or the United States Department of Energy.

(4) That this invention, to the best of his knowledge and belief, was not made nor conceived in the course of or under any contract, subcontract, or arrangement entered into with or for the benefit of the United States Atomic Energy Commission, or its successors in interest, the United States Energy Research and Development Administration or the United States Department of Energy.

The undersigned Declarant further declares that all statements made herein of his own knowledge are true, and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful false

statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001, Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.
